REFINEMENT

Sibling auto-link · cross-daycare

One parent account, multiple children, possibly at different daycares. Parent sees all their kids in one app. Each daycare only sees the children in their own program.

SARAH'S APP · SEES BOTH

My children

Mia Chen 3y
Sunridge · Sunshine Room

Leo Chen 5y
↗ PrairieKids · K-Class

✓ **One inbox.** Messages, photos, billing for both kids in one place.

SUNRIDGE ADMIN · SEES MIA ONLY

Mia Chen 3y
Sunshine Room

Parent has a sibling elsewhere

You can see **that** a sibling exists (for sibling-discount eligibility) but not their name, school, or details.

-\$50/mo sibling discount applied

PRAIRIEKIDS ADMIN · SEES LEO ONLY

Leo Chen 5y
K-Class

Sees no info about Mia. The other daycare is invisible from here.

Email is the key

Same parent email used in two registration forms → KidFlow auto-merges into one parent account.

Privacy wall

Daycare A and Daycare B never see each other's data. Each only sees the kid enrolled with them.

Discount eligibility

Daycare A knows a sibling exists (yes/no) so they can grant sibling discount — but nothing more.

REFINEMENT · SUBMISSIONS TABLE

Spam & duplicate detection

Two flavors. **Soft duplicates** (same parent email + same child DOB) get auto-merged — the admin sees a single applicant card with both submissions stacked. **Spam** (no child name, gibberish email) is auto-flagged and hidden from the main view.

⚠ POSSIBLE DUPLICATE Same email + same DOB · 2 submissions
